

# **BUBBLE BATH** **PROMISE**

*Community Agenda*

# ***BUBBLE BATH PROMISE***

We have two definitions of service at Bubble Bath Car Wash. Our service as a car wash is to clean vehicles, but our service as a family-owned business from San Antonio is to be a strong community partner for our city.

***THAT IS OUR BUBBLE BATH PROMISE***

# *OUR STORY*

Bubble Bath Car Wash is a family-owned business whose roots in San Antonio are more than five generations deep. When we opened our first location in 2005, we knew that we wanted to be more than a car wash. We wanted Bubble Bath to be a responsible community partner who supports its neighbors and strengthens the fabric of San Antonio.

The Bubble Bath Promise Community Agenda is our commitment to San Antonio, focusing on four primary tenets:

-  **Supporting Our Neighbors**
-  **Serving Those Who Serve**
-  **Nurturing the Next Generation**
-  **Protecting Our Planet**

Our family's passion for helping others is shared by our team of more than 50 employees. Whether it is fundraising for local non-profits, encouraging blood donations, or hosting a Christmas Card Drive for seniors, we are committed to helping San Antonio reach its full potential - that's the Bubble Bath Promise.

Sincerely,  
The Lopez Family

# ***SUPPORTING OUR NEIGHBORS***

The health and well-being of our fellow San Antonians have always been important to us. We support organizations and initiatives that unite our local community to spread compassion, kindness, and strength.

Bubble Bath Car Wash is a proud partner of **Haven for Hope**, a transformational community that assists homeless individuals and families by providing housing and resources for long-term change.

In 2020, Bubble Bath Car Wash created **Drive 4 Life**, a blood drive program that united multiple car washes across San Antonio to encourage blood donations to the South Texas Blood & Tissue Center during a blood shortage that emerged at the onset of COVID-19.

We also worked with **Meals on Wheels San Antonio** to distribute more than 900 hand-written Christmas Cards to isolated, home-bound seniors who were spending their Christmas alone due to the pandemic.

Most recently, the 2021 snowstorm left thousands without running water. Bubble Bath Car Wash quickly mobilized to offer **clean drinking water** to individuals in need.

# ***NURTURING THE NEXT GENERATION***

The future of San Antonio is bright because of the overflowing potential of its youth. Bubble Bath Car Wash is dedicated to programs that foster young imaginations, encourage innovation and create brighter futures.

Bubble Bath Car Wash has been a long-standing supporter of **The Children's Shelter**, a non-profit that provides a safe place for children who have been the victims of abuse, neglect, or abandonment.

In 2018, we partnered with **The Doseum** to create a mini Bubble Bath Car Wash in the interactive children's exhibit called Little Town. The toddler utopia continues to promote exploration, build literacy and numeracy skills, and generate real-life connections.

# *SERVING THOSE WHO SERVE*

Being founded in "Military City USA", Bubble Bath Car Wash is a proud advocate of programs and organizations that give back to our city's military population.

We are honored to partner with the new San Antonio **K9s for Warriors** facility, where rescue dogs are trained to be service dogs for veterans suffering from PTSD and other military-related traumas. One hundred percent of proceeds from our Culebra Grand Opening Weekend went to K-9s for Warriors and their life-saving programs.

Bubble Bath Car Wash is also a member of **Grace for Vets**, a national non-profit organization that gives veterans and service personnel FREE car washes on Veterans Day.

# *PROTECTING OUR PLANET*

We only have one planet Earth. That's why Bubble Bath Car Wash is taking action to become more sustainable and reduce the company's footprint on the environment.

Bubble Bath Car Wash has integrated alternative energy into the car wash business by installing **solar panels** at three car wash locations.

Using a **water recovery system**, Bubble Bath reduces freshwater usage to ten gallons per vehicle. Car washes operating without water recovery systems use 35-80 gallons per car. Reused water is strategically used on tires, undercarriages, and wrap lubrication.

Bubble Bath is part of the **SAWS WaterSaver Car Wash Program**, which requires car wash businesses to meet various water-saving requirements, decrease water usage, and protect San Antonio's water quality.

In addition, we use **biodegradable cleaning products** at all Bubble Bath locations to reduce pollution.
